

How to read L&T's waste management invoice

1. At the top of the invoice, you will find the invoice number, due date, and customer number.

2. Here you can see the address where the service was provided.

3. Under the heading "Transactions during the period," the following are itemized on separate lines for the billing period:

- A) services
- B) waste management fees
- C) any possible container rental fees by waste type.

4. On the transaction lines, the unit price excluding tax, the amount of tax, and the total sum of the services including tax are specified.

5. Deviations in regular services, such as extra waste or an emptying that could not be performed, are shown on separate lines according to the transaction date.

6. Possible billing service fee: For paper invoices, we charge a billing service fee, the price including tax is €2.69 for private customers and €19.90 for business customers (VAT 0%). We do not charge a billing service fee for e-invoices for private customers or for online invoices for business customers.

7. You will find the payment details of the invoice here. Always use the reference number when making a payment. When you enter the account number and payee in your online bank, you will be informed whether they match.

Note: If the name does not match exactly, but the account number is correct, you can make the payment with confidence.

How do I calculate the cost of a single emptying?

The emptying price consists of the service (emptying the container) and the waste management fee. You can calculate the price of one emptying by adding together the individual prices without taxes and multiplying the sum by the amount of tax (1.255). On the example invoice, the emptying price for mixed waste is $4,00+9,26 \times 1,255 = 16,64$.

My emptying frequency is once a month on Thursdays. Why have I been charged for two emptying visits for one month?

The emptying frequencies are reported in weeks, not months. Therefore, your emptying frequency is every four weeks. For example, there are five Thursdays in October 2025, so the emptying visits can be taken place on 2 and 30 October.

You can find more information at lt.fi/laskutus. If you would prefer service by phone, please call 010 636 4000. The service is available on weekdays from 9 am to 2 pm.
